THREE -Qualities Contribute to Perfect Coffee

MILLIONS enjoy Maxwell House Coffee. They know about this famous blend first served in Dixie years ago . . . about the Vita-Fresh packing process which guarantees roaster fresh-ness by removing more flavour-robbing air from the tin than any other process. air from the tin than any other process.

. And about a new and exclusive method of grinding which exposes more of the flavour cells and insures more flavour no matter what way of making coffee you use—drip, percolator or boling. Buy a tin of Maxwell House today, Roasted and packed in Canada.

"War" or Prosperity in New Ford Steel Mills?

Just so you can be sure-

NOW you can be sure. Sure you are getting gasoline and motor oils of the finest quality. Sure you are buying from a dealer who has your best interests at heart.

Buy where you see this red-white-and-blue Imperial oval sign. It is put up for your protection.

Ten thousand dealers sell Imperial products because they believe no one else has the equipment and experience to make gasoline and oils of Imperial quality.

Imperial Oil has confidence in these dealers. They have confidence in Imperial Oil. A great company and a great network of dealers working to-gether for your protection.

Who was the man in the iron mask? We must confess ourselves baffled. Historians have given us various theories relative to ancestry ... Eye witnesses have given us accounts of his stature, habits, mode of apparel, deportment and one hundred and one other details, but-one feature is really significant...NO ONE KNOWS WHO HE WAS.

IF the analogy doesn't seem too far-fetched, may we liken him to the manufacturer who, making a good product, decides it to be so superlative that it will eventually sell itself! He, like our friend in the mask, is doomed to bitter oblivion characteristic of men who, through short-sightedness, fail to grasp the one essential fact that business opponents are merciless. They ask no quarter and give none. When you are faced with competition of this kind, take the initiative, market your product FIRST and do it over-night . . . in the DAILY NEWSPAPER.

CARRY THE FIRST WORD OF IT TO THE CONSUMER

A Parade of Ceaseless Work

... a sign of triumphant industry marching ahead; truly a thought to make us ponder, but our constantly fulfilled expectations have helped us grow callous to that upon which our daily bread depends! There is life behind the unending struggle for existence. An epic in which the whole range of human effort is loosed every day. Allied with it, we have the record of perseverance, high ideals, and a system of co-ordination which have taken generations of progress to perfect.

We have FIRST-the group who force the earth itself to give up its goods. SECONDLY those who take this material and make, mould or pack it into the form which civilization demands. THIRDLY-the men who transport this merchandise to the widely-located distributing points . . .

AND FINALLY, the one basic medium which carries the news of all these many necessities into the home of the consumer-THE DAILY NEWSPAPER

Yesterday and Today

Who would want to go back to the standards of even a generation ago? We have traveled for since then. Inventions and scientific discoverles have furnished the principal vehicles: New conveniences, improved merchandise, better foods, added health-conserving means

But the thing which has hastened us on to the knowledge and acceptance of their benefits is advertising. It has brought new things quickly to all of us and sped us toward a different, befter mode of

Modern advertising sells us, not only things, but ideas. The advertising of seaps has sold us the health advantages of more frequent bathing. The advertising of modern bathroom equipment has made bathing a singful pleasure.

The advertising of improved rators and beard softeners has made whisking off whiskers a simple daily ditty instead of a weekly major

Tooth-paste, tooth-brush and mouth-wash manufacturers and retailers are saving a untold aches and years of marred smiles, by advertising the importance of oral hygiens.

As a result of the advertising of food manufacturers and purveyers, we have escaped from the drowsy dulness caused by heavy breakfasts and are full-or forenoon vim and olear-headedness.

The ciothes we wear, furniture we use, fuel we burn, our we drive, telephone we've installed-all these would not so quickly have come home to us, were it not for the slient but irredelible force of advertising.

> Keep pace with the world you live in by reading the advertisements in this newspaper.

If you wrap a piece of ice in a blanket ...

it will melt too slowly to preserve your food. For the ice must be exposed and melt in order to keep the refrigerator sufficiently cool.

It's the same with soap! It must dissolve from the bar before it can do its work. The hard, common kinds of soap take their

own time about dissolving.

But Sunlight dissolves freely, so it isn't necessary to leave it in the water. In fact it's wasteful to do so.

Just swish the bar around a little and right away you have plenty of bubbly, lasting suda —even with hard water!

Sunlight, being all pure soap, not only dissolves quickly, but works faster—therefore more economi-cal—does not harf either bands or finest fabrics. Look for this Gurantee of

Purity on every carton. It means real economy—longer life to your clothes—protection to your

Magistrate Warns Men tu Leave Town After They "Get Out"

Yesterday and Today

Who would want to go back in the standards of even a generation ago? We have traveled far since then. Inventions and solentific discoverles have furnished the principal vehicles: New conveniences, improved merchandise, better foods, added health-conserving means,

But the thing which has hastened us on to the knowledge and acceptance of their benefits is advertising. It has brought new things quickly to all of us and sped us toward a different, better made of

Modern advertising sells us, not only things, but ideas. The advertising of scaps has sold us the health advantages of more frequent bathing. The advertising of modern bathroom equipment has made bathing a singful pleasure.

The advertising of improved razors and beard softeners has made whisking off whiskers a simple daily ditty instead of a weekly major

Tooth-paste, tooth-brush and mouth-wash manufacturers and retailers are saving us untold aches and years of marred smiles, by advertising the importance of oral hygiens.

As a result of the advertising of food manufacturers and purveyors, we have escaped from the drowsy dulness caused by heavy breakfasts and are full or forencen vim and clear-headedness.

The clothes we wear, furniture we use, fuel we burn, car we drive, telephone we've installed-all these would not so quickly have come home to us, were it not for the blient but irresistible force of advertiging.

> Keep page with the world you live in by reading the advertisements in this newspaper.

WHEN you buy a Ford V-8 you buy more than a new car . . . von huy a new thrill in motoring. No other low-price car can possibly give you the same smooth, satisfying performance because no other car under \$4000 has a V-8 engine. . . . Over and over again, as you travel along, you will say-"I'm glad I bought a Ford V-8." At today's low prices it is the greatest value ever offered in a motor car. And it is the most economical Ford car ever built.

Yesterday and Today

Who would want to go back to the standards of even a generation ago? We have traveled far since then. Inventions and scientific discoverles have furnished the principal vehicles: New conveniences, improved merchandise, better foods, added health-conserving means.

But the thing which has hestened us on in the knowledge and acceptance of their benefits is advertising. It has brought new things quickly to all of us and sped us toward a different, better mode of

Modern advertising sells us, not only things, but ideas. The advertising of scaps has sold us the health advantages of more frequent bathing. The advertising of modern bathroom equipment has made bathing a singful pleasure.

The advertising of improved rezors and beard softeners has misde whicking off whickers a simple daily ditty instead of a weekly major operation.

Tooth-pasts, tooth-brush and mouth-wash manufacturers and retailers are saving us untold aches and years of marred smiles, by advertising the importance of oral hygiene.

As a result of the advertising of food manufacturers and purveyors, we have escaped from the drowsy dulness caused by heavy breakfasts and are full or forenoon vim and clear-headedness.

The clothes we wear, furniture we use, fuel we burn, car we drive, telephone, we've installed-all these would not so quickly have come home to us, were ill not for the silent but irresistible force of advertising.

CARRY THE FIRST WORD OF IT TO THE CONSUMER

A Parade of Ceaseless Work

... a sign of triumphant industry marching ahead; truly a thought to make us ponder, but our constantly fulfilled expectations have helped us grow callous to that upon which our daily bread depends! There is life behind it—the unending struggle for existence. An epic in which the whole range of human effort is loosed every day. Allied with it, we have the record of perseverance, high ideals, and a system of co-ordination which have taken generations of progress to perfect.

We have FIRST-the group who force the earth itself to give up its goods. SECONDLY-those who take this material and make, mould or pack it into the form which civilization demands. THIRDLY-the men who transport this merchandise to the widely-located distributing points . . .

AND FINALLY, the one basic medium which carries the news of all these many necessities into the home of the consumer-THE DAILY NEWSPAPER

50 YEARS AGO

Sept. 18th., 1886 A new and much needed side-walk is being built on Moles

street. The western disl of the city clock needs repairing. It is unsafe and unsightly.

The new market book the "Priend", lately built by Mr. Andrews, made her first trip to day with a cargo. She took coal to Treaton. to Trenton.

The coah rallway is now in operation in the Ritchie store and proves an interesting contrivance to those who see it for the first

YOU ARE **ALWAYS RIGHT**

TAILORED C

Good appearance goes along way to help you in a business way. You not only look better, but you actually FEEL better in smart, well-cut clothes. Buy, then, clothes, that are new in style and pattern, well-cut and well-fitting in every detail.

You are always in spire and partern, well-cut and well-titting in every detail.

You are always "right" when you buy an E AT ON TAILORED SUIT! The woollens are up-to-date in weave and colouring — the styles are adapted from current London and New York style successes — your suit is made individually to your own measurements in the EATON tailoring workshops in Toronto Whether you are a university man, a young business man or an older man with young ideas about dother, buy EATON TAILORED CLOTHES for style a quality value.

When you go out formally in the evening, whether fo a dinner or a dance, you meet people who judge you by your dress. To be well-turned-out is no longer an expensiva luxury. Evening clothes (two piece) made to your measure by EATON'S are tailoring achievements—and are "right" in every respect.

EATON Tailored Clothes Also Priced \$27.50 and \$35.00

Building Alteration

Workmen have started on the alteration of the back end of our stores. The sound of harmers and save resounds, and when the last stall is driven home, we shall present to our outsomers a much finer appearing store with an enlarged stilling and display space. These alterations necessitate moving a lot of stock into rather oranged quarters, and for this reason we have decided to reduce the prices on many lines of merchandise.

In other words we are going im make iii profitable for you to shop to the sound of hummer and saw, it will be impossible to lite very item in our advertisements and we ask you to step into the store as often as you are down town (in fact it will pay you to make a spoid tripe down). We contemplate that the alterations will take a full month to complete and during that period you will save on your purchases at

Partners Purchasing

AS WE make our purchases for Fall -- clothes and fuel, furniture and food - we are a vast body of people, all responding alike to the urga of the oncoming season. But in still another way are we joined. We seek aid, advice shill suggestion from today's advertising in this paper-

This habit of ours to look to the printed word for help has grown In quite a natural way. From experience over the years we have found that it pays. For only a worthy store and product can be advertised continuously. To pay the advertiser, advertising must be bonest.

That is why advertising it a helpful partner of us all. It helps the manufacturer and store to sell. It helps you-the customer-to buy to the best advantage.

YOU WILL LIKE PICOBAC

Tve anoked Picobac between meals for a good many years now. Because why? Because I like it. That's the only reason I know of. Because it suits me. It's my idea of a mild . . . cool . . sweet smoke.

"It's a pleasure to me just to fill my pipe with Picobac and tump it down with my thumb. It's a pleasure to light it fresh, and taste its mellow flavour. And it's a satisfaction to smoke it to the bottom of the bowl. "That's why I recommend Picobac to other folia. That's why I want YOU to try it. Because I like it

"And den't forget, you get a tobacco for your money . . . Good, for making cigarettes, too."

SETTLING DOWN AFTER VACATION

Vacation time is past and all attention is now centred on the more serious aspects of life—schools are open and humming with the activity of thoughtful students busy securing as good a foundation as possible for the battle of business life to come later. Business men are planning fall and winter campaigns just as a military leader pre-pares plans for battle. This is a good time to consider seriously what business equipment we are going to give our children for this business battle in come. No matter our children for this business battle is come. We matter what their future path in life may be a business education will help them, in fact is essential. Have a talk with the principal of the Ontario Business College and learn about lies various helpful course available in this educational institution which will round out an education suitable for meeting the many emergencies of business life with understanding.

Partners Purchasing

AS WE make our purchases for Fall -- clothes and fuel, furniture and food - we are a vast body of people, all responding alike to the urge of the encoming season. But in still another way are we joined. We eack aid, advice and suggestion from today's advertising III this paper-

This habit of ours to took to the printed word for help has grown in quite a natural way. From experience over the years we have found that it pays. For only a worthy store and product can be advortland continuously. To pay the advertiser, advertising must be honest.

That is why advertising is a helpful partner of us all. It helps the manufacturer and store to sail. It helps you—the customer—to buy to the best advantage.

It's time to take down the screens

MQST of us hate to see Summer.go., . We miss the freedom that, comes from being out-of-doors. We dread being bottled up in heated houses - wearing heavy clothes - righting colds and all the Impositions of Winter.

Since we have to live indoors, let's be gay and make indoors attractive. A new rug will brighten the living-room and the one it displaces can go upstairs to cheer up a bedroom. Some colorful curtains will accentuate the pale winter sun. A new kitchen range or sink will take the gloom out of that much-used werkshop. Some comfortable chairs will help you relax during the long evenings.

A little money will go a long way today in renavising your home. dust watch the advertisements in this newspaper — there are amazing bargains in furniture, lamps, ourtains, rugs and kitchen equipment. You're always more certain to get full value for your money when you buy products advertised by dependable merchants and manufacturers.

Wet it's easy to tell the difference if you look for the "atering" mark on aiver and the "purity" mark on the soap. But this "purity" mark is not on every soap. Sunlight is the only soap which is oc carefully made from the purest ingredients that it is stamped: "Guaranteed Pures!"

8 Being all pure soap, Sunlight dissolves readily, it forms plenty of suds so quickly lasting suds which cleaness most economi-cally. They wash sore clothes beautifully clean without harm to fabric or colours... and Sunlight's pure, gentle suds never could roughen or burt your hands.

To the women who have once used Sunlight, other soops are mayer really satisfactory, Look for the \$5,000 Sunlight Guarantee of Purity on every carton. It means real economy—longer life to your clothes—protection to your hands.

A FURTHER STEP on the Road to Recovery

A Statement by the Prime Minister of Canada

THE Dominion of Canada will offer for public uther/pition within the next few days the 1934 Refunding Loon. It is an undertaking of such significance to every citizen that I think it fitting to present this brief explanation of its close relation to the welfare and continued progress of our country.

welfare and continued progress of our country.

The 1914 Lone is not an incidented effort. It is a part—
—and an essential part—of the great debt conversion
1931, and by which cannot have been engaged since
1931, and by which we are refunding at entantity the
large same becroved for wention purposes. The set of the part of the country of the progress of the part of the country of the part of the

1. National Credit

National credit means to a nation what an honest reputation means to a men. Its maintenance is a primary securitied and reconstitutes that each obligation be met, fully and promptly, as it comos due. Our debt conversion programms is then, in the first instance, our method of meeting our obligations and thus maintaining

By this programme Canada has already refunded \$255,000,000 of majuring yeartime debt, and completion of the 1934 Lean will bring the refunded total to over one billion collabor. As a result, Canada's credit stands notably high, both at home and in the great money markets of the world.

The facts of business recovery are written beyond dispute in our statistical records. The most significant indices relate to physical volume of business, industrial production, carbodings, electric power production, employment and prices. Here is the record in each case:

PERCENTAGE INCREASE

Physical volume of business fedustrial Production..... Carloadings..... Electric Power Production.

Our external trade figures are equally encouraging. During the first eight months of the present year-cepters of Canadian products increased approximately \$99,000,000, or 32.75° over the same period last year. The corresponding increase for imports has been slightly under \$93,000,000, or 38.2%.

A Further Step

Anyone who reflocts upon these three aspects of credit, economy and recovery will at once appreciate that the debt conversion programme is witally important to every Canadian and that, consequently, the success of the 1934 Loan is the personal occorn of every man and woman in the Dominion.
